Witness Performing Arts, is a non-profit Corporation formed to promote, encourage, enhance, and foster education and training, both traditional and non-traditional, within the “Performing Arts”. We want to assist in the enhancement of growth and quality of life through the development and re-development of natural gifts and talents of children from the beginning stages of life so it is natural to function in the essence of their being, in dance, choral singing, music, pom-pom, and pilates.

Fall News 2007

We have had an interesting 2007. The only classes we offer at the center are introductory dance classes, which covers only some of the basic's in dance and some basic dance principals. This was a huge blow for the program because our students were advancing to level's II & III which was not only exciting, but fun to watch. With any challenge we must grow and learn – “What doesn't kill us makes us stronger”!

WE ARE FINALLY LEAVING THE CENTER!

Our next step is securing the facility that has been presented so we can continue serving the community with dance, pom-pom, pilates & music classes.

We are looking for support from the community so we know those who plan to continue taking class with us.

A meeting time is tentatively set for Mon. Oct. 22, 2007 @ 7pm

If you have any questions, please email MarQue

Please remember that we are a Christian based program

(How many times should I forgive? 70 x 7)

Please help us in our commitment to you and your family.

Love, Honor & Respect!

Lets commit to working together for a common goal, the Children.
